## PRESIDENT IN PEACE PLEA AT GETTYSBURG

EFFORT FOR UNIVERSAL PEACE  
IS DUE OUR DEAD  
HEROES.

GETTYSBURG, Pa., May 31.—Delivering the annual Memorial day address on the famous Gettysburg battlefield, President Coolidge called upon the whole nation Memorial Day to help establish peace at home and abroad. Such efforts, he said, were the least due to those who had given their lives for the United States and for whose honor Memorial day was set aside.

speaking from almost the same spot where Lincoln made his immortal Gettysburg address, President Coolidge faced thousands of residents and visitors, thousands more of whom had pampered the route from the station to the national cemetery. Received by the local officials and escorted to the speakers' platform Mr. Coolidge began speaking immediately.

Stressing America's desire for peace, Mr. Coolidge said that "the one thing we want above all else for ourselves and for other nations is a continuance of peace."

Mr. Coolidge revived the effort now being made by this country to remove the trace of war in the future. The present negotiations for a treaty to outlaw war he termed one of the most impressive peace in-

After noticing the very favorable reception given by all countries interested in the Briand-Kellogg suggestions for an antiwar treaty, Mr. Coolidge expressed the hope that the efforts of the two foreign ministers to effect a solution of the problem

**MINE HEAD SLAIN**  
MEXICO CITY, May 31. (UP)—A  
C. Smith of Denver, superintendent of

the San Carlos mine, was murdered from ambush while motoring between the mine and Pachuca, a dispatch

The assassin, the dispatch said, broke Smith's right wrist with his first shot, and then, as the emperor

first shot, and then, as the automobile halted, sent two shots into the American's body.

LINDY AT LONG BEACH  
LONG BEACH, Calif., May 8 (UP)—Colonel Charles A. Lindbergh

Wednesday morning he entered the race unheralded and not even looked upon as one of the possible "dark horse" winners. He had driven less than 125 miles over the speedway track. His little experience here came last year when he drove a short time as a relief pilot.

But as the race progressed beyond the 250 mile mark, the crowd began to notice that Louis Meyer was in the race. He is one of those drivers who do not indulge in the spectacular but his poise at the wheel gives him the sort of color which endeared the late Frank Lockhart to the fans.

His automobile was in perfect condition yesterday. He made only one stop during the race, that the regular half-way pause to take on gasoline and oil and look over the car. He was in the pits just two minutes and thirteen seconds.

Throughout the race he was content to lay back, merely staying up among the first five. He seemed assured that his chance to win lay not in spurring to overtake the leader but in pushing them to "wear out their cars."

As the final seventy five miles of the race began the lead was nip and tuck between Jimmy Gleason and Tony Gulotta, the former driving a Duesenberg and the latter a Stutz.

Gleason and Gulotta traded the lead more than once and they were looked upon as the first and second winners with but a few laps to go. Meyer stayed behind them, not a

attempting to get into their fight for the lead. Then suddenly on the 186th lap the break came. Gleason was forced from the race permanently and Gulotta's car developed motor trouble which kept him in the pits for several minutes.

Then Meyer swung into the lead and was never headed. Gulotta managed to repair his ear and get back on the track in time to finish tenth place.

Commenting on his victory today he had this to say:

## Traffic Sign

'STOP AND GO' AT CORNER OF  
WALNUT AND LOCUST STS.  
STOPS SPEEDING.

One of the best moves of the city and school officials have made has been the erection of the "Stop and Jo" sign at the intersection of Wa-

The new sign was put in operation this week, and has been a determining factor in slowing down traffic at this dangerous corner. Owing to the fact that it is near the school building, hundreds of youngsters cross this intersection daily, and it is a wonder that there has not been a bad accident before the sign was erected.

With the operation of the sign, speeding has been stopped and far as has been reported, all motorists are observing the sign and stop when the signal is against them. In this manner, the danger to students from the schools, is almost done away with, and if the motorists will continue to observe the sign, it will probably be the means of preventing a bad accident at the corner in the future.

The tent meeting which is being held on Commercial Place is growing in interest with large attendance and good music. Everybody is invited to come each evening at 7:30 o'clock. Mrs. Grace Black.

## Konjola Banished That Tired, Achy Feeling He Had

His Friends Urged Him To Give New Medicine A Trial; Now Free Of All Miseries.

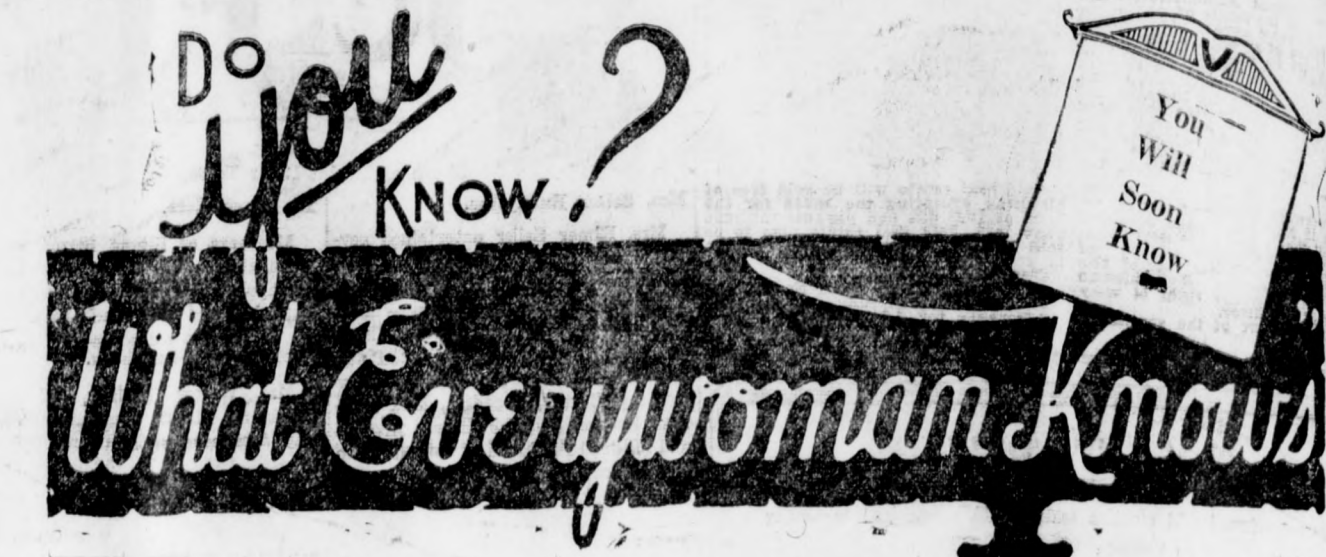

MR. A. J. HART  
"Konjola has done more for me than I ever thought any medicine would do," said Mr. A. J. Hart, 1354 Ridge street, Richmond, Ind.

"My stomach was in such a disordered condition that everything I ate caused gas to form and bloat me. I also had terrible smothering spells and I felt that I couldn't get my breath. Then my kidneys began to trouble me and because of weakness I was forced to rise many times during the night. Severe pains across the small of my back kept me in constant misery. I also suffered from headaches that came over me from a chronic case of constipation. I rarely ever had enough energy to carry me through the day.

"My friends urged me to try Konjola and when I started on this medicine I could feel new energy and health flowing through my system right away. Now I am free of all my former health troubles. Gas never forms on my stomach and I am eating anything that I want without the least suffering afterward. Konjola also ended the kidney trouble and regulated my bowels so that I don't have to take a laxative any more. My nerves are stronger and I feel one hundred percent better and I give all the credit to Konjola."

Konjola is sold in Greencastle at the Owl Drug store, and by all the best druggists in all towns throughout this section.

## Middy Bread

Is very popular because so good

"I am the Ad Man for Middy Bread and like to occasionally get around among the folks who sell and eat it. Middy Bread is going so good that my boss seems to think it is the advertising, but I think he is mistaken. I told him yesterday I thought it was due to the fine co-operation of the grocers who sell it, then to the way everybody likes this new loaf and want more of it—and of course, because he and his force bake such good bread in their fine, clean bakery. Well, anyway, I'm going to call on some of the grocers and homes in Greencastle just to find out what they think about it. And whether the boss likes it or not, I am going to tell just what I find in a series of ads like this one."

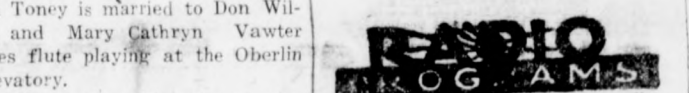

Cal Dunlap

made a stern command to "be silent" and several shots were fired into the ballroom over the heads of the guests. Several of the women fainted.

The entire procedure occupied between twenty and thirty minutes. After they had scooped all of the valuables available they made their exit in an orderly manner and left simultaneously through several doors they had entered. They sped away in the sedan, the motor of which had been left running.

## BANDITS ROB CLUB

GUESTS WEDNESDAY

(Continued from page 1).

guests to line up against the wall in the ball room, the bandits forced them to toss all of their billfolds, watches, rings, bracelets and other jewelry and all of their pocket money into a large canvas bag. Ernest Fisher, a guest, was struck on the head when he consumed too much time in getting out his money to suit the bandits.

A. M. Rosenthal, president of the club, attempted to convince the raiding quartet that there was no safe in the club containing a large sum of money, but doubt remained in the minds of the bandits until they succeeded in robbing the club "till" of 32 cents.

While the guests were lined against the wall, facing the doorway, other bandits appeared and searched the halls and others rooms for guests and employees who had hidden. Some of the guests succeeded in tossing their money and jewelry behind them instead of into the canvas, when the bandits were not looking, but the robbers found most of the articles afterwards when they searched the furniture upholstery and corners behind the radiators. Joe Quinson, the French chef, was robbed of \$10. Other employees were lined up against the walls and robbed.

When a number of the guests became unruly and many of the women became frightened, one of the bandits who was standing in the balcony

**EITEL FLORAL CO.**

TWO KILLED IN BALLOON RACE  
PITTSBURGH, Pa., May 31. (UP)—Captain E. W. E. Kepner's army No. 1 balloon landed at Weems, Va., at 6:10 a. m. today, winning the national elimination balloon race, according to word received here from the contest board of the National Aeronautic Association at Washington, D. C.

PITTSBURGH, May 31. (UP)—Violent rain, wind and electric storms brought the National Balloon Race, which started from Pittsburgh yesterday, to a sudden stop today with

two pilots killed, two others injured and all but one balloon forced down. The fourteenth balloon is unaccounted for, probably has been forced to land, race headquarters here said.

The pilots killed were: Lieut. Paul Everett of the U. S. A. No. 3. Walter W. Morton of the city of Akron. Everett's aide, Lieutenant, escaped injury but W. T. Van Orman, pilot in the Akron balloon, was injured. Morton and Van Orman were forced to make parachute jumps from

their balloon near Greensburg, Pa. The army balloon in which Everett and Ent were riding was struck by lightning near Youngwood, Pa. A third craft was struck by lightning near Youngwood. It was the city of Cleveland piloted by J. F. Cooper, C. K. Wollam was the assistant. Cooper was injured when he rode down in the basket under the blazing bag but Wollam made a parachute leap and escaped. The army balloon was flying low when the lightning struck it. The big craft suddenly burst into flames and whirled the short distance to the
